Pro rata

25% Personal Rebate!

After your first 28 days, continue to earn a personal rebate of 25% by purchasing 400 QV or more each month. This personal rebate is paid monthly on your total CV amount. 50% of volume is paid to monthly Unilevel Commissions.

Dynamic Compression...Dynamic compression pays infinitely deep beneath your lowest qualified compressed level, until another Member in your organization reaches the same rank or higher.

Standard Compression...Any volume less than 100 QV will (standard) compress to the first qualified Member.

ARE YOU READY TO EARN?

**82% pay out on
AmpliFire and
JumpStart sales**

How to maximize the ForeverGreen Compensation Plan

1. **Sign up with a Determined Pack.** By doing so, you will immediately be qualified to receive a \$100 Builder Rebate. You will also be grandfathered as "Determined" rank for three full calendar months. You immediately jump three ranks higher, meaning you get paid THREE levels deep in your organization.
2. Make sure you set up your Autoship with AmpliFire or another JumpStart Pack. We strongly recommend you set up a 200 QV Autoship which will qualify you to receive 7% instead of 5% in the Unilevel payout.
3. Enroll as many people as you can; you start receiving the "LIFELONG" 20% JumpStart Enroller Bonus and other bonuses immediately.

Built in compression to ensure money gets paid out to people

How much would you like to earn?

The following simulation is based on buying a Determined Pack.

1. Retail Profit

Keep 100 bottles of AmpliFire for samples and personal consumption and retail the remaining 100 bottles at \$3.99 each:

100 bottles @ \$3.99 = \$399

2. 25% Builder Rebate

By purchasing 400 points, you are qualified to earn a rebate of 25% on your first purchase: 400 CV x 25% = \$100

Simply by retailing AmpliFire you can earn \$499!!!

**Up to \$1000
Car Bonus**

12% Combined Bonus Pool

When you start sharing AmpliFire and FrequenSea with others, you are building your business and earning residual income.

The following simulation is based on AmpliFire or another JumpStart Pack purchased by New Members:

Enroll one person with the Determined Pack to earn \$130

Enroll one person with 200 QV pack to earn \$90

Enroll one person with 100 QV pack to earn \$45

Enroll one person with 50 QV pack to earn \$22.50

How much you earn is up to you! Enroll as many people as you would like to start earning today.

Residual Income : Residual income begins after 28 days

1. Continue to earn a 20% JumpStart Enroller Bonus on every one you personally enroll who purchases AmpliFire or another JumpStart pack. (Bonus is paid on AmpliFire or JumpStart Pack purchase only.)
2. Based on your personal qualification, you can earn an additional 5% or 7% every time someone in your downline purchases any product.
3. When you purchase 400 QV or more each month, you also qualify to receive a 25% Personal Rebate.

Additional Bonus

Depending on your progression in the business, you will be rewarded accordingly with **extra bonuses:**

10% WorldWide Leadership Pool Bonus

2% Rainmaker Pool

Up to \$1000 Car Bonus

ForeverGreen offers a generous compensation plan for those who wish to earn additional income. Congratulations on your decision to join a company with vision, heart and integrity. Thank you for being ForeverGreen!

Pays FIVE times a month!

Comp Plan Q&A

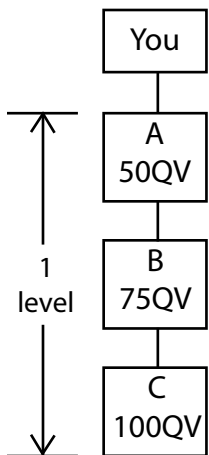

What do I need to do to maximize my income?

Purchase an AmpliFire or JumpStart Pack on a monthly basis, and start sharing the products with others. We suggest you enroll at least four (4) people to build a business with and teach them to do the same. If you continue duplicating this action, you will create a solid and residual income for yourself.

If I don't qualify to receive commission, where will the commission go?

The ForeverGreen Compensation Plan has a built in "roll-up" function. This means if you don't meet required qualifications, the system will automatically look up the tree to find the next qualifier to pay out the money to. In JumpStart and FastStart scenarios, the system will look up the "Enroller Tree" and pay out the money. In Unilevel pay out, the system will look up the "Sponsor Tree" until all the money is paid out.

What does Standard Compression mean? How does that apply to my commissions?

Standard Compression is a method we use to calculate your commission. Our commission system will temporarily remove Members who didn't place an order during the payout period, and combine Members who purchase less than 100 QV into a "level." What this means for you is, you will get paid more volume in each level, hence receiving more commission on each level.

How can ForeverGreen pay up to 82% in commissions? It is much higher than other companies!

The AmpliFire and FrequenSea JumpStart Programs are our flagship products and business models. Because of the large quantities sold, we are able to give more commission back to Members.

How long can I earn the 20% JumpStart Enroller Bonus?

You can earn this bonus for **as long as you want!** Simply maintain an AmpliFire or JumpStart Auto-ship every month to ensure your qualification. Every time someone you personally enroll purchases an AmpliFire or JumpStart Pack, you will receive this 20% bonus.

What does Dynamic Compression mean? How does it work?

Dynamic Compression is similar to an infinity bonus, which allows you to get paid not only on your guaranteed levels but to the end of your organization if you hold the highest rank within your downline group. Every time someone places an order, the commission system looks for eight (8) upline qualifiers to receive the bonus. If someone doesn't meet the qualification, the system will continue searching for an upline qualifier until all 50% is paid out.

How can ForeverGreen pay a 25% Personal Rebate and also pay the rest of the bonuses? Can a company sustain this kind of payout and still be profitable?

ForeverGreen has a guaranteed amount of commission that gets paid out every time a product is sold. So basically the same amount of money is paid but in different proportions. When a 25% Rebate is paid, this means an Upline will get paid on the remaining amount of calculated commission instead of the full amount. For example, take a 400 QV order. 25% of the commission is paid to the person who purchases the product. The remaining commission (200 QV) is paid to his or her Upline. This is good news for the Upline because it allows them to rank advance easier because the full 400 QV is counted towards their group volume (OV).
